Jacks, Idlers and High School Win Games

Annual Municipal Meeting Is Held

The Annual Meeting of the Suagr City Municipality, No. 37, was held in the Town Hall, Raymond, on Saturday, February 18th, with a good attendance present, and a very good feeling seemed to pervade the meeting before its conclusion. The Financial Statement was presented, and considerable time spent in discussing it and explaining some of the entries that were entered in lump sums. Charges of extravagance had been made in respect to some items, but when these

were itemized and explained, every penny was accounted for and those present at the meeting were convinced that rigid economy had been practised, and that the Municipality had received full value for every dollar that had been expended. The time for election saw three acclamations, viz., N. W. Peterson, present Reeve of the Council will continue to represent Welling, R. R. Murray was returned as the representative for New Dayton, and R. S. Orgill for South Raymond.

JACKS DEFEAT ACES 43-20; IDLERS TRIM GLENWOOD 81-22; AND RAYMOND HIGH SCHOOL TROUNCE CARDESTON HIGH BY SCORE OF 30-27

The Sugar City had a great night at Basketball on Friday night of last week when the High School, Intermediates and Union Jacks all won their games the latter two in the Opera House here.

The High School boys played a bang up game with the Temple City squad, and made it 9 wins out of 4 starts from the Cardston squad. It is too bad that the boys couldn't hit their stride a little earlier in the season, as they surely have been going great since they got going good, and they would have given the Garden City squad some real opposition if they had been able to show the speed and endurance all season that they are now showing. The score Friday night was 30-27 after 40 minutes of interesting play.

IDLERS TOO SPEEDY

The intermediate fixture between Glenwood and the Idlers which formed the preliminary to the Senior game was too one sided to be very interesting. The Idlers had too much speed for the visitors, and Webster line were bulging the hemp repeatedly, despite the efforts of the Glenwood players.

The best of feelings prevailed throughout the game, and the visitors took their teaming in a most commendable way, playing their hardest to the last and giving the winners a rousing cheer at the end of the game.

Earl Zemp and Dewey Leavitt had the whistles in the first half, and Zemp was alone in the second stanza, but kept the game well in hand.

The lineup and score follow:

Glenwood: W. Leavitt, O. E. Leavitt, 6; J. Prince, 2; C. Lybbert, 3; Burgess, 2; Leishman, 4. TOTAL 22.

IDLERS: Webster, 24; Kirkham, 20; Galbraith, 6; King, 3; Hague, 0; Van Orman, 6; O'Brien, 18; Woolley, 4. TOTAL 88.

ACES TIRE IN SECOND HALF

The third game of the Aces-Jacks series had the crowd keyed up to a fever pitch before the game got started, and the teams both got a great hand when they came out on the floor to begin warming up. About 200 fans were on hand for the contest which was featured by fast passing and close checking.

Right from the first whistle both teams went into the play with all they had, and the game was hardly started until Sinclair for Lethbridge and D. O'Brien for the Jacks had sunk a field basket each, then Lethbridge made a foul shot to put them one up, and right after that O'Brien got four foul shots and made them all, although he was only credited with three of them. The score saw-sawed back and forth all through the half, the fans yelling themselves hoarse in advising and urging on the players.

Seldom has a faster 20 minutes of ball been seen on the Opera House floor than the first half of this game. Up and down the floor the players raced, intercepting passes, and when a player received the ball if he did not get rid of it in a pass or a shot, in just a little less than no time, someone was

TWO GAME PLAY OFF

A two game play off between the Cardston Maple Leafs and the Raymond Idlers has been arranged for Friday night in Cardston and Monday night in the Opera House. This will decide the winner of the division, and that team will then play Barnwell.

right on top of him, and forcing him to pass or give it up to the opposition. It was not uncommon for a player to make a perfect pass to the opposition, play being so fast that even the colors failed to stand out clear enough to guide the players. The half ended 22-27 in favor of Lethbridge, and the visitors went to the recess in high spirits, the locals feeling like a last end of a hard winter.

SECOND HALF

When play was resumed in the second half, Hague went in for Raymond in place of Nalder, and the interest was resumed as the play started fairly even for the opening of the period. Before long, however, the Jacks began to pound the hemp with painful regularity, and the herometer of the Aces started down, when what a few moments before had looked like sure, victory began to be turned into certain defeat.

Players on both teams began to tire, and despite the fact that substitutes were frequently put in by Lethbridge, the pace could not be kept up, and the Aces in the second half were held to one field basket two foul points, while the Jacks piled up a score of 26 for this period.

It was a game with plenty of thrills in, the guards checking every play, and Raymond's long man taking the ball almost off the hoop as soon as a shot proved useless. Some of the prettiest intercepting of passes a person could wish for was displayed at spots in the game, and while Lethbridge lost, the locals knew they had been playing ball, and earned every point that they made, despite the fact that they had a good lead at the conclusion of the game.

Zemp and Wiley had the whistles, and when these two judge a game, players have to be good and play the game, or they receive no mercy from the iron men. O'Brien was sent to the showers for four personals, and about two minutes later Sinclair of the Aces, was also handed a tie pass to the dressing rooms.

The lineup and score follows: ACES:—Sinclair, 5; Mitchell, 3; Allen, 0; Dunlop, 5; Cornblum, 0; Russel, 0; Hamilton, 3. TOTAL 26.

JACKS:—O'Brien, 16; Kirkham, 12; Nilsson, 0; Rolfsen, 8; Hague, 7; Fairbanks, 0. TOTAL 43.

Hamilton made a clean pass through the window in the east side of the hall and Rayo Woolf's heart missed several beats as he heard the crash of the big pane of glass. The sphere went like a bullet, and no one was within reaching distance of it as it crashed thru the window in the north-east corner.

The wind was melting the snow quite rapidly on Monday.

Maurice Cooper and S. I. May were in Magrath on business on Tuesday last.

Ernie Organ's Car Tips Over

News Notes

Geo. Harmston has been ill for a couple of weeks past, but is getting around again now and is tending his shop now.

What a picture — What a cast — "DIVORCE IN THE FAMILY" at the Capitol, Tonight and Saturday.

Miss Edythe McMullin returned home on Monday from Cardston after spending the week end there with friends.

Mrs. S. I. May returned home Sunday evening after a brief visit with relatives and friends in Cardston and district.

The Jacks played the fourth game with the Aces in Lethbridge last night, and won by a score of 50-40. This is 4 in a row for the Jacks.

Mrs. Dr. Tessa had charge of the activity program at the 1st Ward Mutual on Tuesday evening, when one of the biggest crowds of the winter was present to enjoy the well prepared program.

Wm. Cooper of Cardston was in Raymond Tuesday this week for his weekly load of sugar, which he is hauling now to points west of Raymond. He expects to be a regular visitor here.

William Powell and Kay Francis in "THE JEWEL ROBBERY", which comes to the Capitol next Monday and Tuesday, is, without a doubt, one of the finest of screen pictures. The type of program that made Wm. Powell famous.

EXPERT OPTICAL SERVICE

Mr. A. MELVILLE ANDERSON, Optometrist, or Anderson and McLean, Sight Specialists, Calgary, wishes to announce his regular visit to the RAYMOND PHARMACY, Friday, Mar. 3. Eyes Examined, Glasses Fitted.

BIRTHDAY PARTY

A birthday party was held at the home of Mrs. D. F. Fawns Tuesday night, when about 35 friends and neighbors gathered to enjoy an evening of progressive games and extend congratulations to the guest of honor. Mesdames D. G. Selman and J. U. Allred organized the surprise and everyone enjoyed themselves immensely, and during the evening had plenty of good and toothsome eats.

By all means plan to attend the Capitol Friday and Saturday of next week, March 3rd and 4th, when they are presenting a BIG DOUBLE FEATURE PROGRAM — "Lena Rivers", written by Mary J. Holmes and also Frank Buck's great picture, "BRING 'EM BACK ALIVE".

The Magrath High defeated Raymond Idlers in Magrath on Wednesday night to the tune of 24-18. It was a good game, the checking was close, but the vision of the referee was rather off especially when it came to calling and checking on Magrath players.

Returning home from Lethbridge Saturday night, Ernie Organ had the misfortune to lose control of his car at the turn coming into town, and it rolled over a time or two, doing considerable damage, but luckily no one was seriously injured.

The driver said he was coming along the road contentedly, and all at once something seemed to go wrong with the rear end of the car, like a wheel giving or something similar, and then he was in the bar pit and the next he knew the car was rolling over sideways.

One wheel was broken off, the windshield and some windows broken, all the top broken, and the uprights by the windshield bent badly. The car was towed in by King Motors, and on Monday a mechanic from one of the Garages in Lethbridge where the car was purchased, came out and put on a new wheel, and drove the car back on its own power, the engine running alright.

With Mr. Organ on Saturday night were his two children, and it is a miracle that no one was injured or killed in the accident, when the car rolled over a couple of times.

"LENA RIVERS" BY MARY J. HOLMES A REAL "BEST SELLER"

Mary J. Holmes' immortal novel, "Lena Rivers", one of the best known and widely read romances ever written by an American, has been transferred to the screen in Tiffany's Productions' film version, with Charlotte Henry in the name role. It is scheduled for presentation at the Capitol Theatre on Friday and Saturday next week. See it and enjoy it.

L. I. PALMER WINS FIRST PRIZE

Leslie Palmer, won 1st prize in "C" Division for Postmasters in the Subscription Campaign sponsored by the publishers of the Free Press Prairie Farmer. This particular campaign is confined to Post Office officials only, and in winning the first award, "Les" has made a record for himself. Last year he stood sixth in the same competition, so apparently the times are not as bad here as in some other places, or else he was able to convert more people to the idea of taking the paper. At any rate we congratulate him on his victory.

Seldom does one have the opportunity of seeing a picture so full of lovable sequences, real life, and heart-breaking situations as "Smilin' Thru" which played a return engagement at the Capitol on Tuesday evening last. A picture that contained real lessons of life, and one that appealed to everyone, is the only description that fits it. "Lee" is certainly to be congratulated on bringing such fine pictures to Raymond, and those who failed to see "Smilin' Thru" missed a real treat and should be sure to see it if it ever returns again. It is a masterpiece of dramatic acting.

Legion Band Is Re-Organized

A meeting of the Legion Band held in the Town Hall Monday evening last, a complete re-organization of the Band was made, and it is expected that attendance and enthusiasm will be rekindled and the work carried on.

Ira McBride as Manager, and Paul H. Redd as Leader were released with a vote of thanks for their past labors, and the following executive sustained with other additions to be made.

Wm. House was made the

new Conductor. Milton Strong as Manager. Sam Dyson as Sec. Treas. The Council is preparing a room in the basement of the Town Hall, for a Band Room, and benches and music stands will be built to accommodate all members.

Practices will be held each Monday evening at 8 p.m., and the new executive asks that all who have instruments either attend practices regularly, or turn their instruments in that some one else may have the use of them.

Town Council Meeting

A meeting of the Town Council was held on Monday night Feb. 20, 1933, at which the new Councilmen were sworn in and the Committees for the year 1933 arranged as follows: the first named in each case being the Chairman:—

FINANCE: M. T. King, Geo. E. Court, S. B. Card.

WORK AND PROPERTY: Geo. E. Court, W. H. Zobell, M. T. King.

WATER AND LIGHT: D. A. Bennett, T. K. Roberts, W. H. Zobell.

LICENSE AND POLICE: T. K. Roberts, Geo. E. Court, D.

A. Bennett. HEALTH and RELIEF: S. B. Card, D. A. Bennett, W. H. Zobell.

Sometime was spent on a discussion of valuations and assessments, and the figures which were submitted by T. Go. Wood at a meeting Thursday night re valuation of Sugar Factory properties were discussed and a committee consisting of Mayor Meeks and the Finance committee of the Town was appointed to meet Chairman L. L. Pack and Paul Dahl and C. F. Tollestrup of the School Board and discuss the question in detail.

Special Missionaries Are Sent Out

Twelve Special Missionaries are leaving Raymond today to labor in the eastern and southern part of the Stake where the work is largely unorganized. The missionaries will be out for about two weeks, during which time, they will as far as possible visit and hold meetings with all who desire it and if opportunity is afforded, organize Sunday Schools and Primaries where the work can be continued. The personnel, and their fields of labor are:—

New Dayton:—Alvin Bullock and Loren Hancock.

Wrentham:—Arlo Palmer and Louis R. King.

Warner:—Jas. S. Anderson and Oliver McLean.

Milk River:—Earl Scoville, Paul Dahl, Ross Salmon and Geo. W. Evans.

Coutts:—A. D. Woolley and Clarence E. Allred.

It is likely that work will be commenced by this mission which will be steadily followed up, and this may be the beginning of even greater activity in the Missionary cause in the years to come. The effect of this effort will be watched with interest by all.

Frost covered everything on Monday morning, and according to weather prophets, this means a storm in ninety days time. Check on your calendar and see if it is correct.

SHOULD THE CHANGE BE MADE?

As many will recall, there was some preliminary work done about seven or eight months ago, as a result of requests and petitions, to change the boundaries of the Sugar City Municipality in order that Stirling may be transferred to another organized district, and that a parcel of about 16 sections in the north-west corner of the Municipality be placed in Local Improvement District No. 38, and that instead of these parcels, the land of the Knight Sugar Co., south of town, between the present boundaries of the District and the Milk River be added to the existing acreage, and taxes for this land be paid in Raymond instead of going to Warner.

Despite the fact that all questions regarding receipts and expenditures were answered to the complete satisfaction of all at the meeting Saturday, and regardless of the fact that some apparently went to the meeting loaded for "bar" and ready to start trouble, and notwithstanding the unanimous vote for the acceptance of the financial statement, and the re-election of all of the old Council to another two years service, there are those who maintain that taxes in the Municipality are too high, that the money spent for improvements in the way of roads and bridges always goes in the same place and that favoritism is the slogan of the M. D. Council. While this condition exists it is impossible for the best work to be accomplished by the men in charge, and although every effort is made to spend fairly and proportionately of all taxes collected, some are sure they never get their share and therefore want to get out. But we will say no more of this.

In regard to the Sugar Co. land which they desire included in the District, it is sufficient to say that whereas, now their taxes go to Warner, and practically all improvements that are made are made south of the Milk River, the Sugar Co. feel they are helping to pay other people's bills and helping to build their roads, and then denied the opportunity, because of their location, of using these same roads. They would rather pay here with the prospect of a little road improvement continually, and perhaps eventually a good high earth grade, or mayhap gravelled in places, to assist them in getting in and out of their holdings the year round.

This matter was presented to Mr. English, Deputy Minister of Municipal Affairs when he was here last fall, and while viewed with favor Mr. English was non-committal on the merits of it, and merely asked that it be tabled until a decision was reached in regard to the larger district plan. This plan is a dead issue now, and the question is shall we again attempt to change our boundaries? You answer the question.

COMMUNITY PROGRESS

While Raymond has much to boast of as it considers past achievements, it would be sheer folly at this stage of its community development to rest content with past laurels and cease striving for further advancement.

Raymond's present high standing among centers of equal population has been won by foresight and aggressive policies in the past. This generation should be just as eager to assure an enviable future for the community as were those men of former generations who often fought a stiff-up-hill fight to gain those things upon which the city's present prestige rests.

Never before in its history has Raymond been in such

good position to go forward in rapid and substantial development as right now. It has all its pristine attractions plus many of relatively recent acquisition.

But to do the things that must be done if the community is to progress along desirable lines of commercial, industrial and residential expansion and betterment there must be no diminution of that spirit of co-operation and willing effort on the part of a considerable number of citizens which has been manifest in all its past accomplishments.

And just as men and women of vision and civic consciousness have always been available in the past, so will they come to the service of the community in future hours of need.

CONSTITUTION OF THE RAYMOND RATEPAYERS ASSOCIATION

February 3, 1933.

This Association shall be known as the Raymond Ratepayers Association.

1. The officers of the above Association shall consist of President, Vice-President, Secretary-Treasurer and a working executive of five members, who shall be elected annually at the last regular meeting of each year, and shall hold office from January 1st to December 31st. Officers shall perform their respective duties until their successors are duly elected; vacancies in any of the above named offices or any other that may be added hereto arising from any cause, shall be filled by election at the next regular meeting, any members occupying any civic office shall not be eligible as an officer in this Association; and all officers and executive shall give their services gratis.

2. Membership in this Association shall be open to all ratepayers of the town of Raymond, school district, male or female, over the age of twenty one years, on payment of the current year's dues of 10c, and personal signature on the Association Membership Roll Book.

3. It shall be the duty of the President to preside at all meetings, to enforce a strict observance of the Constitution and By-laws of the Association, to sign all orders on the Treasury for sums voted by the Association, and to call special meetings at his discretion, or when demanded by a majority of the Executive or six members of the Association by written request.

4. It shall be the duty of the Vice-President to act for the President during his absence or when called upon by the Chair, and while so acting he shall have all the powers of the President in preserving order, and to perform such other duties as may be required or imposed according to his office.

5. It shall be the duty of the Secretary-Treasurer to keep a correct account of all the money received by him and keep an account of all the income and expenditure of the Association. All money held by him shall be deposited in the Raymond Branch of the Canadian Bank of Commerce, he shall keep on record accurately the minutes of the Association and shall perform such other duties as his office requires.

6. The Executive shall have power to call special meetings through the President when deemed necessary and shall act for and on behalf of this Association during the interim between regular meetings upon matters requiring immediate attention and shall in other ways exercise general supervision to the interest of the tax payers.

7. The aims and objects of the Association shall be to arouse an intelligent interest in all civic affairs both administrative and educational with a view to procuring the most economical and efficient form of administration and to bring to the attention of the elected officers such matters as are deemed necessary for the progress of the community.

8. At each annual meeting a committee of two shall be appointed to give due publicity to the ratepayers of all proceedings at the elected officers meetings.

9. The Association shall be strictly non-sectarian and non-political.

News Notes

If variety is the spice of life there should have been plenty of spices at the Second Ward Sacrament Meeting on Sunday night last, when the ten Special Missionaries from that ward, who are going to labor in the eastern section of the State were given an opportunity to speak before their departure which is taking place today. They will be gone until the fore part of March at least and probably longer than that.

Everything has good points. Taking a deep breath for a long kiss develops a girl's lungs.

It is queer how unfaithfully the neighbors find you out, and how seldom the bill collector does.

A letter from Mr. and Mrs. Thos. Allen in Victoria states that the weather has been very unpleasant and Tommy has not felt much good from Coast weather as yet. They can be thankful they were not here week before last when we had so much sub zero weather with north winds.

THE HUMAN MACHINE

The motor car goes, but what makes it go? The answer is not as simple as it might appear to be. Most of us have experienced the failure of the motor's engine to run smoothly, and, on such occasions we have realized how little we know about what makes the engine go, or what causes it to misbehave.

The human body works like an engine. It is, however, much more difficult to find out what makes it go, or why it gets out of order. We cannot take the parts out and examine them, nor can we stop the human machine and start it up again.

It is remarkable how well and how efficiently the body machine does its work, how effectively the various organs of the body are designed to do the particular work which they are called upon to perform.

Th blood carries oxygen to every one of the millions of cells which make up the tissues and organs. In the normal body there is never a lack of oxygen, because a large reserve is available. This is true in spite of the fact that when the body is hard at work, the need for oxygen is greatly increased. The demand is met by an increase in the rate of breathing and in the amount of blood flowing through the lungs. In this way, the additional amount of oxygen required is picked up by the blood from the air in the lungs.

The red blood cells are the actual carriers of the oxygen. When the demand for oxygen is low, a portion of the red cells is withdrawn from the circulation, and these are kept in the spleen ready to come out, at a moment's notice, to meet any demand that arises for more oxygen.

Blood is sent where it is needed. The heart, by increasing the rate of its beats, increases the rapidity of flow of the blood. Blood vessels dilate when the need for blood increases in the muscles or in the organs supplied by the blood vessels. The dilation of the blood vessels diverts the blood to the parts where it is needed. After a meal, an increased supply of blood is given to the digestive system through the dilatation of the abdominal blood vessels, and at such times, we become drowsy because, as a result of sending additional blood to the abdominal region, the blood supply to the brain is diminished.

The blood carries not only oxygen, but food, and, in addition the powerful substances secreted by certain organs which have much to do in regulating the growth and functioning of the whole body.

If man is to keep his body working smoothly, he must do his part. Reasonable attention given to the human machine is rewarded by the increased happiness that comes with a healthy body. Abuse leads to the misery resulting from the troubles which come from a poorly working machine.

Questions concerning Health, addressed to the Canadian Medical Association, 134 College Street, Toronto, will be answered personally by letter.

BYGONES

The business man or manufacturer whose hope for the future is wrapped up in an expected return to pre-war normalcy is out on a limb. For pre-war normalcy never will return. That's history.

We still hear suggestions and hopes of reverting to old-time methods and the pre-war business basis, but, according to Dr. Julius Klein, of the United States Department of Commerce, such a retrogression would be about as simple as an attempt to return to the middle ages and about as profitable.

There isn't a great deal of room in business these days for Aunt Sarah, who inherited a shoe factory and insisted that the factory go on making high laced shoes because Uncle Ezra sold 'em in the '70's. American business never was more dynamic and volatile than it is today, with a constantly changing front in practically all lines.

Since 1921 Mr. Klein points out, American business has left as monuments of its progress a long succession of junk-heaps and discarded processes, antiquated ideas and obsolete policies. There have been tragedies of those who clung too long to revered and once profitable practices.

The new business man must be eager to take advantage of the slightest change in trend. It is no day for secrecy. Backward glimpses should not be longed and desirous of what is behind but intelligently inquisitive of facts.

News Notes

He who keeps to many irons in the fire gets burned.

Trouble is a lot of fun and fun is a lot of trouble.

Some boys are small for their age and so are some men.

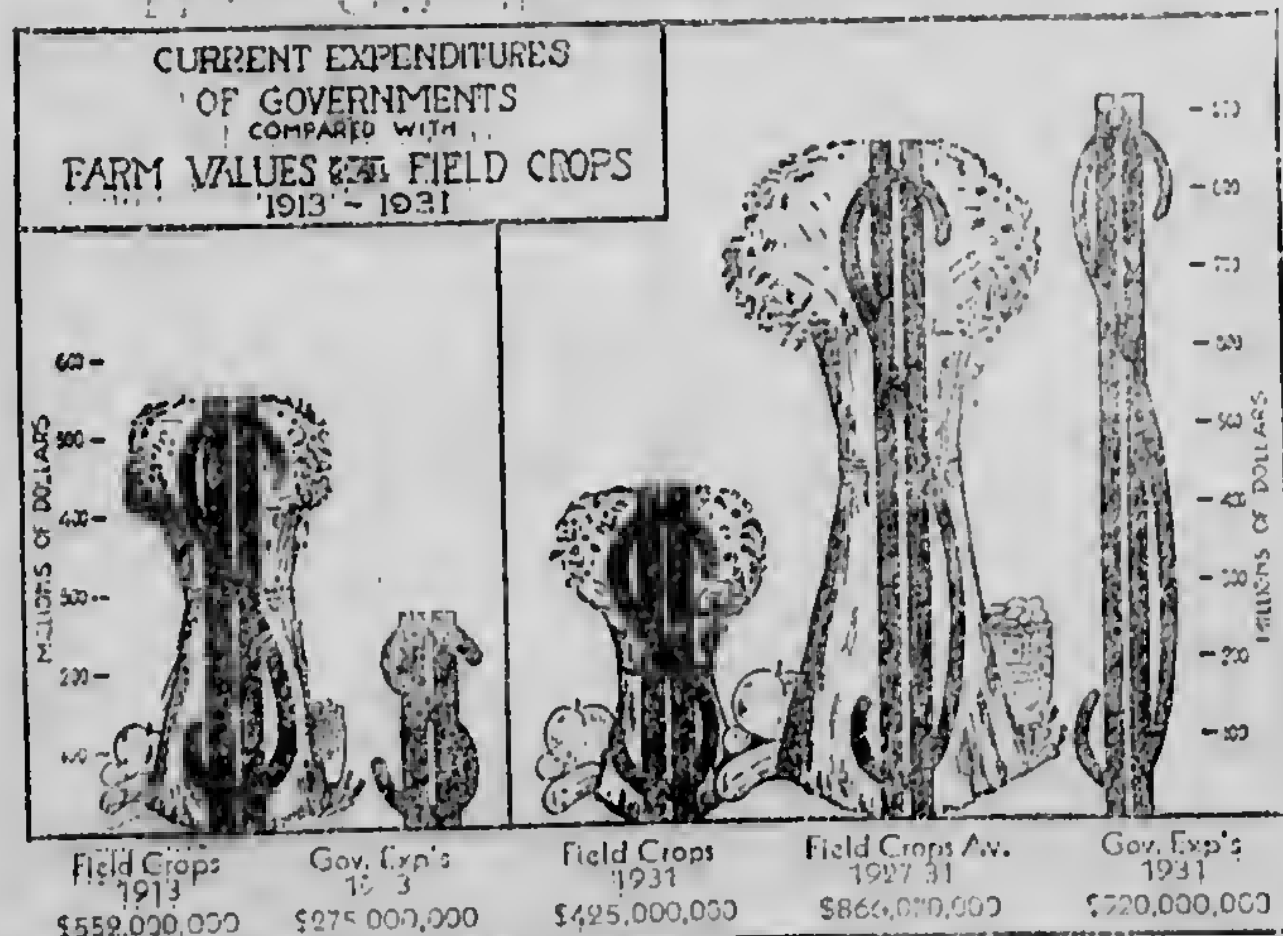

Lots of us are looking for the path of least persistence.

While it pays to be honest you often are a long time collecting.

The man who makes a fool out of himself always claims some one else did it.

The great China question, as seen in most of our homes, is, "Who will wash the dishes?"

How Canada Gets and Spends

A study showing the comparison between the cost of Government in Canada and the farm value of all field crops has been prepared by W. Sanford Evans and released for the National Committee on economy in public finance by the Canadian Chamber of Commerce. The study, as illustrated by the chart, indicates that in 1913 the total sum expended by governments for ordinary purposes was equal to 50 per cent. of the farm value of all field crops in Canada. In 1931 Government expenditures expended a sum equal to 216 per cent. of the value of all field crops.

As prices were exceptionally low and yield not high in 1931, another comparison is added. The average value of all field crops for the 5 years, 1927-1931, including three years of good prices, was \$866,000,000, while the ordinary expenditures of governments in 1931 were \$820,000,000. Whereas in 1913 a sum equal to one-half the value of the field crops sufficed to meet ordinary government expenditures, a stage has now been reached where the average value of all field crops falls short by many millions of dollars of meeting the ordinary requirements of governments.

Not a week passes that you are not being canvassed by representatives of nationally advertised products to stock and push them, and to give them good window and counter displays

Local Retailers Is It Fair?

Their Representatives tell you of the large sums of money being spent in metropolitan daily newspapers and nationally-circulated magazines, to create and maintain consumer demand, and they try hard to persuade you that such "remote" advertising will surely create and sustain large local demand

It is admitted that it is advantageous to you and your customers for you to buy nationally advertised products, but such products will sell faster if they are locally advertised, in this newspaper, in addition to being advertised in non-local publications.

There is no good or sound reason why a national advertiser should not do local advertising in his paper. You will be told, when you say to the representative of firms canvassing you to stock and push his firm's product, "Oh, we could never afford to do local advertising." What he really means when he says such words, is that he doesn't expect large local sales. If he did, then he would see that these local sales can provide a sum of money adequately to maintain a local advertising campaign.

Why should you help a national advertiser to develop his business in the territory covered by the circulation of this newspaper without advertising co-operation from him?

You provide local distribution facilities for manufacturers of branded products, and your value to them is recognized. Why, then, should these manufacturers not assist you to sell these goods, if stocked by you, by a series of local advertisements, perhaps carrying your name as local distributor, published in this newspaper?

The more frequently and vigorously you present your point of view to national advertisers, direct and through the representative who calls on you, the more surely will you persuade them to accept it

GEORGE BAILEY ACCIDENT VICTIM

George Bailey of Magrath was an accident victim at the Galt Hospital while on his way to the operating room.

The deceased had been in the Doctor's care for two weeks, preparing for a major operation, and on Thursday afternoon Dr. Spackman decided to operate. The patient was being transferred from his room to the operating room, and the portable stretcher was half way into the automatic elevator, when all at once the car started up, and despite the effort of the lady Superintendent it continued to the next floor, and crushed Mr. Bailey between the bed and the next floor, and then he dropped fifteen feet to the basement floor and the bottom of the shaft, while the elevator and the lady attendant continued on up

to the top of the building before she could stop the car or get out.

The elevator had operated alright a few minutes before the accident, and fifteen minutes after it worked O.K., and what could have caused its peculiar behavior remains a mystery. A coroner's inquest was held and the following verdict returned: "That George Bailey came to his death in the Galt Hospital on Thursday afternoon as the result of an accident caused by unexplained interference with the mechanism of the elevator." A rider recommended that signs be placed on all doors while elevator repairs were being made, and that no one be allowed in the pent house while elevator was in use.

The funeral was held Tuesday in Magrath, and interment was in the cemetery there.

ATTEMPT MADE ON LIFE OF PRESIDENT ROOSEVELT

Following a brief speech in Miami, Fla., on Wednesday evening of last week, a gunman who "hates" all governments opened fire in the crowd where President-elect Franklin D. Roosevelt was standing, and emptied a six shooter into the throng wounding six people, among them being Mayor Cermak of Chicago, and Mrs. Gill of Miami who are still critically ill. Mr. Roosevelt escaped injury.

The would be murderer was rounced upon by the mob before he had a chance to escape and when brought to trial was sentenced to 30 years in jail; twenty years on each of four counts, and may yet face a murder trial, as the charges for Mayor Cermak and Mrs. Gill were not included in the ones on which he was tried, and to accomplish in killing Mr.

Just what the gunman hop Roosevelt remains unknown, and whether he was acting on his own or on instructions from someone else has not been disclosed. Justice however descended with a mitt of iron when it came to passing sentence. Giuseppe Zangara was the name of the gunman.

On Tuesday of this week Mr. Roosevelt received a bomb in the mail, which rolled out on the floor when unwrapped but did not explode. They certainly seem to want the President elect out of the way.

EDUCATION BY CORRESPONDENCE

Nearly 800 pupils are registered this winter in the correspondence course in school work conducted by the provincial education department for benefit of children in outlying districts. The courses have to do only with public school work thus far, but the possibility of extending it to include high school work is being considered.

AS SEEN FROM THE GALLERY OF ALBERTA LEGISLATURE

The galleries of the Alberta Legislature were crowded to the doors last Monday to hear W. R. Howson, the Liberal leader, open the debate on the Speech from the Throne. Mr. Howson backed up his statements by quoting the printed records of the government and during the course of his address stated that if the government was to adopt the C.C.F. platform of nationalization they should resign and appeal to the people for a new mandate.

The highlights of his address were:

1. That the Liberal policy was a home saving policy as in contrast to the new policy of the C.C.F. and U.F.A. government which was a home-taking policy through heavy taxation.
2. That the Debt Adjustment Act of the provincial government was not truly a debt adjustment Act. Mr. Howson wanted a Debt Adjustment Act that would adjust the debts and not postpone them.
3. Mr. Howson said there should be established by the government of the Dominion of Canada a Federal Bank under the Finance Act for the purpose of directing and controlling the issue of currency and the extension of credit and particularly for the financing of Provinces and Municipalities on the basis —

(a) That such bank accept the bonds of the Provinces and Municipalities at par.

(b) That such bank charge the provinces and Municipalities a rate of interest sufficient only to cover the bare cost of operation plus a reasonable per cent to build up a safe reserve.

4. That the U.F.A. Government was now replaced by the C.C.F. Government without a mandate from the people.

5. Mr. Howson thought that the Session should be a home-saving session, but if the C.C.F. program was carried out it would be a home-taking session. In the absence of the Premier, the Minister of Education took up the case for the Government, and in his usual "merry mood" assured the House and the country at large that all is well. He defended the expenses of every department. The doubling of the Provincial debt is justified, provided some other Province has made the same blunder. His speech was very entertaining, but consisted in a great measure of clippings from various newspapers. One pleasing feature of his address, however, was that if his department was costing too much it could be run for less. If a janitor service of sixty thousand dollars was too high for the Edmonton Normal School it could be reduced.

Mr. D. M. Duggan, leader of the Conservative Party, in one of the best speeches in the House this session condemned the financial policy of the Government, a continuation of which he feared might lead to default. He stated the debt has now reached the staggering sum of \$143,690,518. In other words \$156.40 for every man, woman and child in Alberta. This, he said, when added to the Federal and Municipal debts was truly alarming.

Mr. Duggan was followed by Mr. Fred White, leader of the Labor Party, who in his eulogy of the C.C.F. gave the impression that the U.F.A. and Labor had been swallowed up entirely by the newer organization and were no longer distinct bodies. Had there been any doubts in the minds of any persons they were removed by Mr. Gibbs,

ATTENTION, MEN!

Mr. Lowden, Representative of Tip-Top Tailors, will be at The Broadway Store on Sat., Mar. 4th

The Broadway Store

News Notes

Miss Zelda Palmer was hostess at a delightful birthday party Tuesday night at her home, in honor of the birthday of Joseph Woolley. Court whist and refreshments occupied the time of the evening.

Those present were: Mr. and Mrs. Marion Palmer, Misses Zelda Palmer, Muriel Webster, Winnie Eveson and Dorothy Strong, and Joseph Woolley, Archie Terry, Milton Strong and Robert Hanna. Everyone greatly enjoyed the evening.

High Wind Blows School Window Out

During the high wind Monday afternoon at about 3:30 one of the large windows in the room taught by Miss James at the Public School was blown out, or probably blown in is more proper, at any rate the pane of glass fell into the room with a crash, and fragments of it were scattered all over.

Mr. Hicken said he thought the house was on fire when he heard the screams from the room, and when he went down stairs he found the children in the hall, and he said the interior of the room looked like a young hurricane had been there alright. Books and ink bottles were blown off the desks, and the teacher's desk was almost swept clean.

Fortunately no one was injured, although one of the students did receive a small cut on the ear, but otherwise no one was injured, but all were terribly frightened for a moment or two after the crash.

member Mr. Edmonson, who has spoken since, concerning Mr. White's declaration.

Only two farmers have spoken so far. Mr. Bowlen of Calgary on the Liberal side, and Mr. Claypool on the Government side. They were both well received and appreciated.

News Notes

Paul Dahl, C. E., Alma and Loren Hancock were Lethbridge visitors of this week.

T. K. Roberts was at Magrath on Tuesday attending the funeral services of Geo. Bailey.

Reg Cooper is in Calgary for a couple of days, having gone up with his brother "Bill" of Cardston on his weekly trip.

The Chinook wind on Tuesday, Wednesday and Thursday was certainly cutting the snow and ice fast. Incidentally, this is about the first real Chinook we have had during the present winter.

A. E. Hancock and Robert Salmon, Returned Missionaries were speakers in the Magrath First Ward Sunday evening on the missionary appointment.

Trehlin Dahl and companion from the Raymond First Ward filled an appointment in the Magrath Second Ward on Sunday evening last.

Mrs. Reg Cooper and children spent the week-end with Mr. and Mrs. Wm. Cooper and family in Cardston. They returned home Sunday evening.

A very delightful surprise was given Mr. and Mrs. Jas. Hawkins, Wed., Feb. 22nd at their ranch home in the O. K. district. Games and other amusements were played during the evening and a very enjoyable time had by all present. Refreshments were served to thirty friends.

A birthday party in honor of Stan Cook was held at his home on Tuesday evening of this week. Games and refreshments occupied the time of the evening. Those present were Mr. and Mrs. J. H. Adams, Mr. and Mrs. A. E. Hancock, Mr. and Mrs. Cliff Scoville and Mr. and Mrs. Stan Cook.
